

Student Showcase 2017

Interior Design Department
College of Design

Project Description

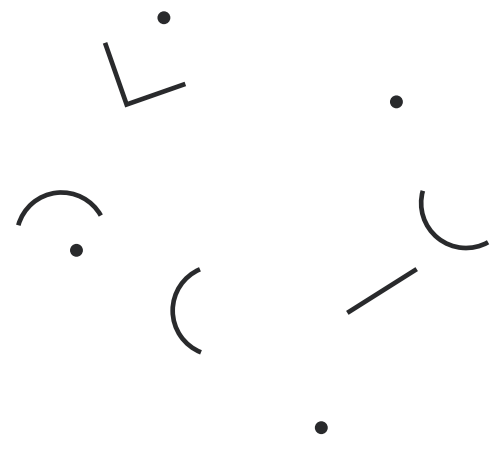

As the final design studio, all interior design students should complete a comprehensive real world design project which integrates programming, research, and design process, as well as graphic, verbal and written communication, using the information, preliminary zoning and the program developed in the senior thesis research foundation. Students will investigate a problem from concept generation to design development and detailing. Their outcome should congregate and utilize their five years knowledge and design capabilities in this terminal project reinforcing specialized knowledge.

Ibtehal Abdulmohsen Aldalilah

Hakaya
vocational edutainment center for children

“There are two gifts that we should give our children: one is root, and other is wings.” Vocational edutainment center is for children aged 6 to 12 years old. The child will practice his career in the center while dealing with the difficulties and challenges; aiming to create a realistic development experience and make the children aware of their future.

Sherouk Mohamed

Fekr
interactive learning center

With a technological development, and with a new method of teaching children, the idea was to establish an interactive learning center to integrate the education of the child with interactive methods during different stages of age starting from 4 years up to 12 years.

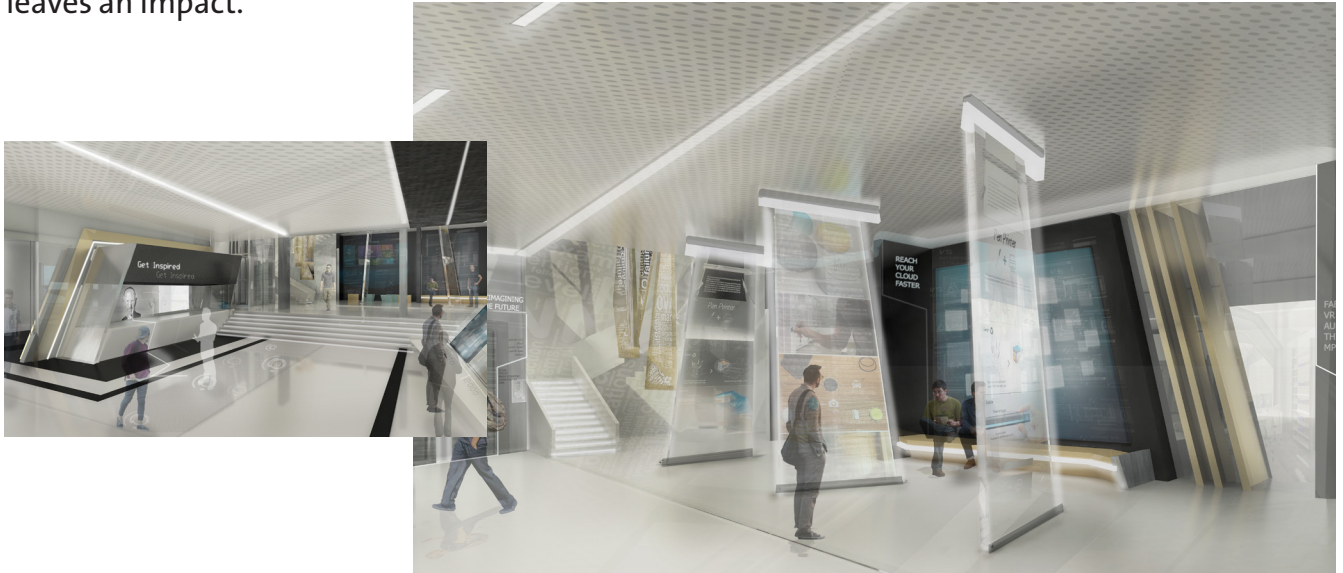

Afnan Dhiya AlDulaijan

Athar

Youth innovation technology center in Dhahran

An educational center that helps young people to develop their innovative ideas, by providing facilities, equipment, materials and training. Youth innovation is the basis for the country technology development because every innovation no matter how small it is leaves an impact.

Bashaer Sami Alfuhaid

Ratq Boulevard

Social Sports Center For Business Women in the Eastern Region.

A center that caters to the needs of businesswomen such as cultural departments, commercial sections, health sections, support departments (beauty center, children's nursery), and aims to connect businesswomen in the Eastern Province and the Gulf States in one place that supports the idea of social networking and exchange experiences.

Zainab Tawfeeg Al Sultan

University Central Library in IAU

“The library of today is not just a collection of books or a place to study – it is a place for multicultural communication, learning, social gathering, and more.” Central library gives great attention to provide scientific materials for different undergraduate majors and modern techniques to support the educational process and research carried out by the employees of the university and other researchers and beneficiaries. In addition to being a rest stop, it is a place to meet with the library’s users.

Fatimah Mansour AL Jassas

Women’s Health Club In Dammam

A center that combines women’s social, health and aesthetic needs. It provides sports services such as swimming pool, gym, and relaxation services such as treatment rooms, beauty salon, and some public facilities. The main concept of designing a health club for women is to provide a suitable environment for women to relax.

Malak Hassan AL Abbas

Fitness and weight loss Center for Girls

It's a Center that cares about the health of obese children; it addresses this problem through physical activity and changing the behavior of their eating and daily life by using new techniques in the sporting world. The center is specific for girls from 7 to 15 years old.

Hanan Madaj AlSubaie

Intima'a Dementia Hostel for Care and Rehabilitation

For elderly people up to 65 years suffering from dementia. It has residential, cultural recreational and rehabilitation areas. The project aims to provide a highly efficient place for dementia elderly people, by playing with the level of perception to decrease the level of limitation and enhance adaptation with the surrounding. Design principles of Dementia friendly environment were applied as well.

Hajar Hassan ALShehri

X-Tech Center

“Be excited, live experience, make something extraordinary.”

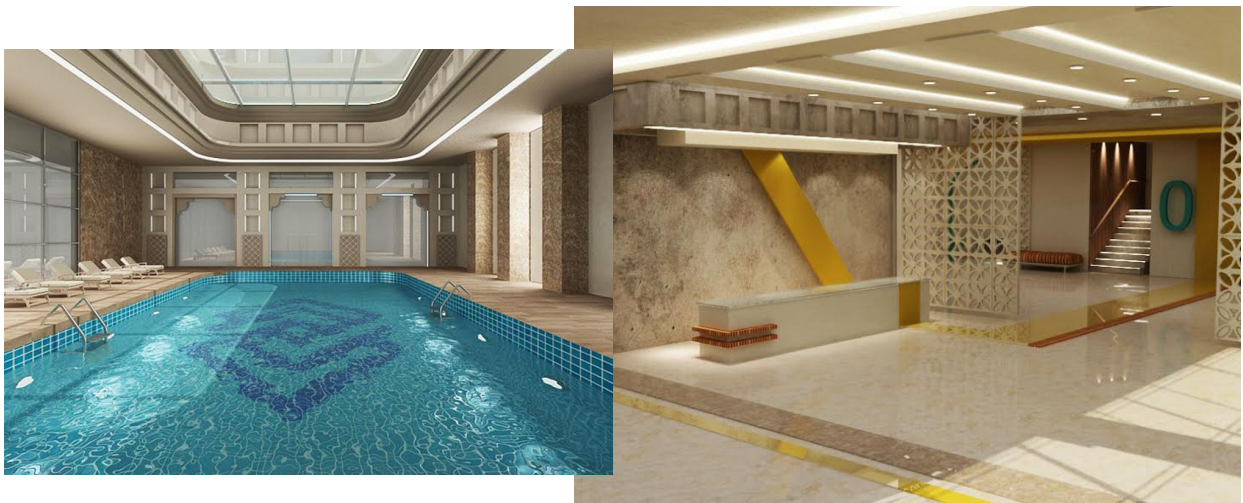

Due to the shifting in the fields of education, training, and technological development, the Center seeks to keep pace with this development by providing a new training experience. “X variables.” So that the trainee practices techniques, tools, and skills within an innovative space to become encouraged to produce their special X-variable, and thus display their produce in the Center exhibitions.

Fatimah Sameer AlHaddad

Social Clubhouse for Retirees

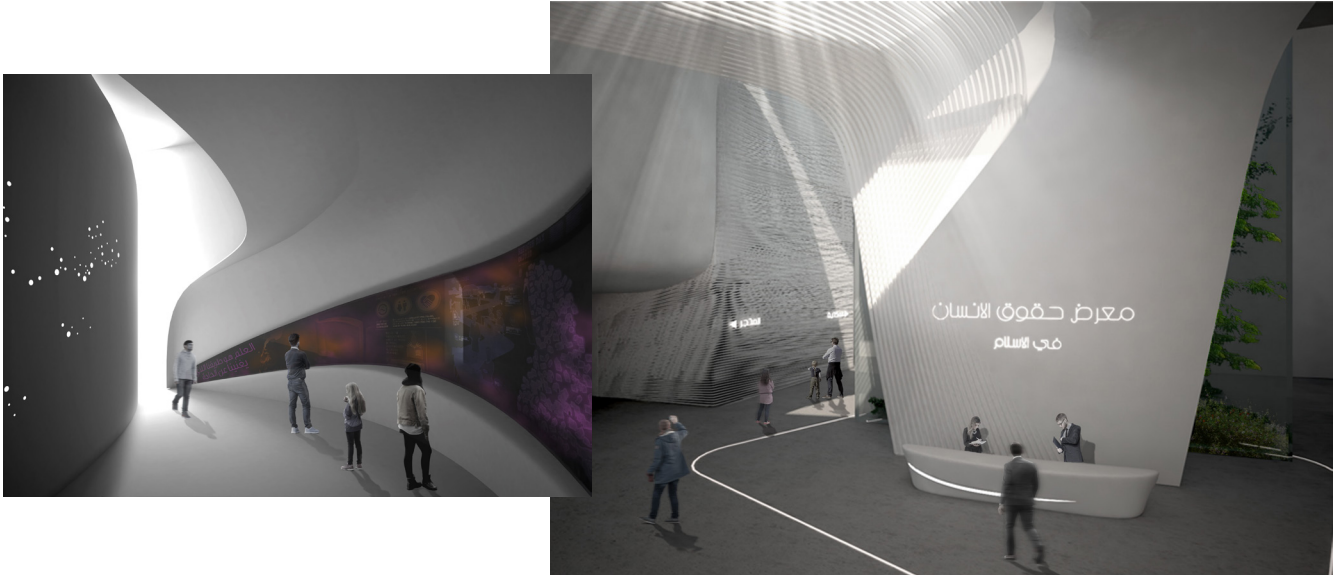

The Center is a social clubhouse for retirees of men aged 60 years or older. Provides them a range of activities that maintain their health and help them continue to live in their homes with their families as well as provide health care and recreational services in addition to their support and encouragement to increase social participation and provide the community with their expertise. It also provides them with temporary accommodation for a limited period.
